EDUCATION:

Degree	Program	University	Year
BS	Electrical & Electronics Eng.	Kirikkale University, Kirikkale	2021

WORK EXPERIENCE:

Year	Company	Work Performed
Aug 2025 – Aug 2026	TURKISH ARMED FORCES Kirklareli, Turkey, Reserve Officer, Electrical & Electronics Eng., Const. Dept.	Conducted on-site technical inspections and comprehensive site surveys for electrical and infrastructure projects. Prepared technical specifications and managed tender documentations. Assisted in the preparation, review, and finalization of electrical engineering projects within technical drawings. Enhanced project planning and technical documentation workflows through cross-functional teamwork and problem-solving.
Dec 2022 – Aug 2025	SISOFT HEALTHCARE INFORMATION SYSTEMS, Ankara, TURKEY, Full Stack Developer, R&D Dept.	Developed and maintained scalable front-end and back-end components for web-based Hospital Information System (HIS) platforms, ensuring high availability. Managed database operations and optimized complex SQL queries on Oracle databases to improve system performance and data management. Administered system operations in Linux-based environments and executed robust API integrations with precise data mapping and comprehensive response/error handling. Collaborated across the full software development lifecycle (SDLC), driving requirement analysis, rapid bug fixing, and continuous system improvements.

PERSONAL SKILLS:

Type	Programs
Back-End Development	Java, Spring Boot, Spring Cloud, Spring Data, Spring Security, Spring MVC, Hibernate ORM
Databases & Data Management	Oracle, PostgreSQL, MySQL, Elasticsearch
Front-End Development	HTML, CSS, JavaScript, Bootstrap, React JS
DevOps	Git, Docker
Tools & Systems	Linux, Apache Tomcat, Toad for Oracle, JUnit 5, Gradle, Maven, IBM Rational ClearCase, IBM Rational ClearQuest
AI Tools	Claude, Cursor

KEY PROJECTS:

1. **Nyala Hospital HIS Deployment & On-Site Supervision | SISOFT (Nyala, SUDAN):** Served as the on-site HIS Supervisor at the Nyala Sudan-Turkey Training and Research Hospital for 3 months. Directed the operational tracking of HIS deployment, provided real-time technical leadership, and successfully resolved complex user and system requirements in a highly dynamic environment.
2. **CPAS (Central Physician Appointment System) API Integration | SISOFT (Ankara, TURKEY):** Spearheaded the end-to-end integration of the Turkish National Central Physician Appointment System (locally known as MHRS) web services into the core HIS platform. Developed intuitive interfaces and robust HTTP methods, enabling seamless, real-time appointment management for both hospital staff and patients.
3. **Military Electrical Infrastructure Planning | TURKISH ARMED FORCES (Kirklareli, TURKEY**): Managed the technical documentation and project review cycles for base-level electrical infrastructure upgrades, ensuring all technical drawings and tender documents met strict military engineering standards.
